

Waverly Va

1/7/48

Dear Sister Lillian.

When I got your last letter I went to Waverly next day and put an ad. in the paper to try to sell the place but it is doubtful if it will amount to any thing.

You remember the place with the brick house an it between my place and Waverly. It is without a tenant and there is a negro living in the house and want be farmed this year. Where are so many negros here and of caures they do nothing to devlope a country, that this country seems to delapidate more than it devlopes.
